RURAL AREA AND AGRICULTURAL POLICY IN MODERN GREECE

Teacher responsible: A. Moysidis

| compulsory (C) or selection (S) course | year | winter (W) or spring (S) semester |
|--|------|-----------------------------------|
| S | 3rd | W |

This course examines the most important forms of State intervention in the process of transformation of the society and the economy of rural area, as well as the morphology and evolution of the structures (landed relations, a combination of production and technology, population and employment) in the period after 1950, within the framework of the postwar model of development.
