**TRADE UNIONS AND COLLECTIVE LABOUR RELATIONS IN GREECE**

**Teacher responsible: I. Kouzis**

compulsory (C) or selection (S) course	year	winter (W) or spring (S) semester
S	4th	W

The course aims to analyse the concept of collective labour relations and of trade-unionism phenomenon with the conditions that manifests itself in Greece and its subsequent dimensions. As such various elements are examined: the historical and contemporary course of Greek trade-union movement, the role and function of collective bargaining, of collective work contract and of strike.
