MODERN SOCIAL THEORY

Teacher responsible: K. Leledakis

compulsory (C) or selection (S) course	year	winter (W) or spring (S) semester
C	2nd	S

The course provides a first approach to a broad spectrum of social theories from the 1920s to the present. It covers rational choice theory, symbolic interaction, structural functionalism (Parsons), structuralism (Levi-Strauss, Althusser), post structuralism (Derrida, Laclau), and contemporary theorists including Giddens, Bourdieu, Castoriadis, Luhmann, Habermas.
