UNEMPLOYMENT AND EMPLOYMENT POLICIES

Teacher responsible: M. Karamessini

compulsory (C) or selection (S) course	year	winter (W) or spring (S) semester
S	4 th	W

This course connects the different theories of unemployment with the various types of employment policies and discusses the effectiveness of these policies in combating unemployment. The topics covered are the following: unemployment theories and the typology of employment policies, goals, instruments and effectiveness of the various types of policies (active, passive, institutional), the post-war experience of employment policy in selected countries, the European Employment Strategy and Greek employment policy.
