LIFELONG EDUCATION

Teacher responsible: E. Prokou

compulsory (C) or selection (S) course	year	winter (W) or spring (S) semester
S	4th	W

The aim of the course is to introduce students to the conceptual framework of lifelong / adult education and to the reasons for the promotion of lifelong learning in the last decades. The factors that have shaped lifelong education at international and European level are analysed, and the basic lifelong learning models in Europe are presented. A special emphasis is attached to adult education policies in Greece. Also, major issues of adult education are examined, namely, adults' learning and the teaching of adults, the methodology of planning and evaluating adult education programmes, distance education and the education of adult educators.
