**SEMINAR: COMPARATIVE DEMOGRAPHIC AND POPULATION POLICY
(EUROPE AND WORLD)**

Teacher responsible: C. Bagavos

compulsory (C) or selection (S) course	year	winter (W) or spring (S) semester
S	4	S

The seminar aims at introducing students on the study of trends and prospects of the world population. It emphasises the knowledge of the principles, the means and the efficiency of demographic and population policies which are implemented in a certain number of developed and developing countries.

- Reading list:
- Vallin, J., 1998. *The World Population*, La Découverte, Paris, (translated in Greek).
 - Tsimbos, C., (ed.) 2009. *Introduction to population geography*. Athens: Stamoulis (in Greek).
